DIV OF OIL GAS & MINING

RE: ML 41810-VM

Dear Mr. Boss:

This letter is in follow-up to our conversation earlier this day when you came into the offices of the Trust Lands Administration at the address hereinabove. You spoke with me regarding a certain letter dated February 23, 2005, which I sent to Korona Industries. The letter requested that Korona Industries perform reclamation of mined land disturbances that were made under mineral lease ML 41810-VM within 90 days (about May 23, 2005). You informed me that your father, Nate Boss, Sr. who was the President of Korona Industries recently passed away and that you are attempting to settle his business affairs. In view of these circumstances I am hereby extending by thirty (30) days the time within which Korona Industries must perform the requested reclamation work under ML 41810. Please complete the reclamation no later than June 23, 2005.

I also gave you a copy of DOGM mining permit #S/045/025 containing reclamation requirements for the mined land disturbance, and referred you to Mr. Lynn Kunzler of the DOGM staff. Please follow the reclamation requirements listed in the DOGM permit and notify me when the work is completed. Upon satisfactory completion of reclamation the Trust Lands Administration will release CD#121816 which this agency currently holds as a reclamation bond on the property.

Sincerely,

John T. Blake  
Mineral Resources Specialist
